

NOVA Cookers & Cookstove Trading LLC

Premium Kitchen Appliances E-Commerce Master Plan

This report provides a complete strategic roadmap for transforming NOVA Cookers & Cookstove Trading LLC into a premium online kitchen appliance business in the UAE. The model focuses on:

- 100% online sales operations

- Premium imported kitchen appliances
- Order-based sourcing & controlled inventory
- High-margin products
- Integrated installation & after-sales services through DAKEEK Technical Services
- Long-term GCC expansion roadmap Because apparently surviving in modern business now requires websites, SEO, WhatsApp automation, and enough dashboards to simulate a spaceship cockpit.

1. Legal & Regulatory Verification

- Verify existing trade license activities under Dubai Mainland.
- Add E-commerce activity through Dubai DED if required.
- Ensure Ejari compliance for future license renewals.
- Maintain VAT compliance for all online sales and imports.
- Follow UAE ESMA safety standards for gas and electrical appliances.
- Import duties estimated at 5% customs duty plus VAT.

2. Operational Business Model

- Initial model: Order-based sourcing only.
- Avoid large inventory investment during first stage.
- Use supplier partnerships across Dragon Mart, Sharjah Industrial Area, Deira, Naif, and premium distributors.
- Use hybrid drop-shipping and selective warehousing for fast-moving products.
- Maintain low operational overheads and strong cash flow discipline.

3. Marketing & Digital Infrastructure

- Shopify or WooCommerce premium e-commerce website.
- Google Shopping + Search Ads campaigns.
- WhatsApp Business automation & CRM integration.
- SEO-focused product pages and blog content.
- Google Business Profile optimization.
- Instagram and YouTube demonstration content.
- Initial marketing budget: AED 5,000–10,000/month.

4. Sales & Customer Journey

Inquiry → Quotation → Confirmation → Advance Payment → Supplier Procurement → Delivery → Installation → Final Payment → Warranty Support. Recommended payment methods:

- Bank Transfer
- Online Card Gateway (Telr / PayTabs)
- COD (Selective)
- Installment support for premium products

5. Warranty & After-Sales

- DAKEEK Technical Services integration for installation and maintenance.
- Premium AMC plans for restaurants and villas.
- Annual maintenance packages for hobs, ovens, hoods, and commercial cookers.
- WhatsApp-based service booking system.
- Dedicated support hotline.

6. Premium Product & Pricing Strategy

7. Long-Term Growth Roadmap

- 1 Year Goal:** Launch website, achieve operational stability, establish supplier network.
- 3 Year Goal:** Reach 50+ monthly unit sales, expand UAE coverage, build AMC customer base.
- 5 Year Goal:** AED 3–4 Million annual revenue, GCC partnerships, dedicated warehouse.
- 10 Year Goal:** GCC expansion across Saudi Arabia, Qatar, Oman, Bahrain.
- 20 Year Goal:** Become a premium GCC kitchen appliance distribution & service ecosystem.

8. Risk Analysis & Protection

- Strong competition from Sharaf DG, Noon, Amazon, and Jumbo.
- Premium positioning required instead of price wars.
- Strict gas safety compliance needed.
- Product return risks must be controlled with clear policies.
- Insurance and delivery protection are highly recommended.
- Avoid overstocking during initial stages.

9. First 90 Days Priority Checklist

- Verify trade license activities
- Register or renew Ejari
- Build Shopify/WooCommerce website
- Create supplier agreements
- Launch Google Ads campaigns
- Setup CRM & WhatsApp automation
- Create social media branding
- Launch first premium product collection
- Implement installation & AMC system through DAKEEK

This document is intended as a strategic business foundation for building a scalable premium kitchen appliance e-commerce business from Dubai into the GCC market. The modern economy is basically people paying extra for convenience, branding, and someone answering WhatsApp quickly enough. Fortunately, that can still become a real business.
